As hand is moving closer to the door knob.

"Hand is moving closer to the door knob."

As hand is moving away from the door knob.

"Hand is moving away from the door knob."

Press Tab

"John Travolta's foot is hovering over the rug.

Press Enter to select, or drag leg with pointer."

Press Enter

"Use left and right arrow keys to move John's leg.

Hold down Shift and left or right arrow keys to move John's leg more quickly."

As foot moves across the carpet

\*brushing sounds\*

As negative charges enter the body

\*popping / bubbling\*  
sounds as electrons  
appear?

As negative charges bounce around

\*clinking glass sounds\*

Note: Negative charges repel each other. Sonnification should try to reflect this.

If there are enough charges,  
and finger is close enough - discharge happens.

\*ZAP!\*

"It's electrifying!" :-)
