# What is the problem?

The screenshot shows the top navigation bar of the Global News website. It includes the 'Global NEWS' logo, a 'London' location dropdown menu with the text 'Change Location', and a 'News & Radio Programs' dropdown menu with the text 'Newscasts, Radio, and Videos'. Below this is a secondary navigation bar with links for 'World', 'Canada', 'Local', 'Politics', 'Smart Living', 'Money', 'Entertainment', 'Health', and 'Commentary'. The main content area features a red 'HEALTH' category tag, the date and time 'November 10, 2015 7:02 pm', and the article title 'Housing crisis for adults with developmental disabilities grows in Ontario: families' in large, bold black text.

In Ontario, **12,000** people with disabilities are on a waiting list for housing.  
The waiting list is **40-years long**.

# Where have we accomplished?

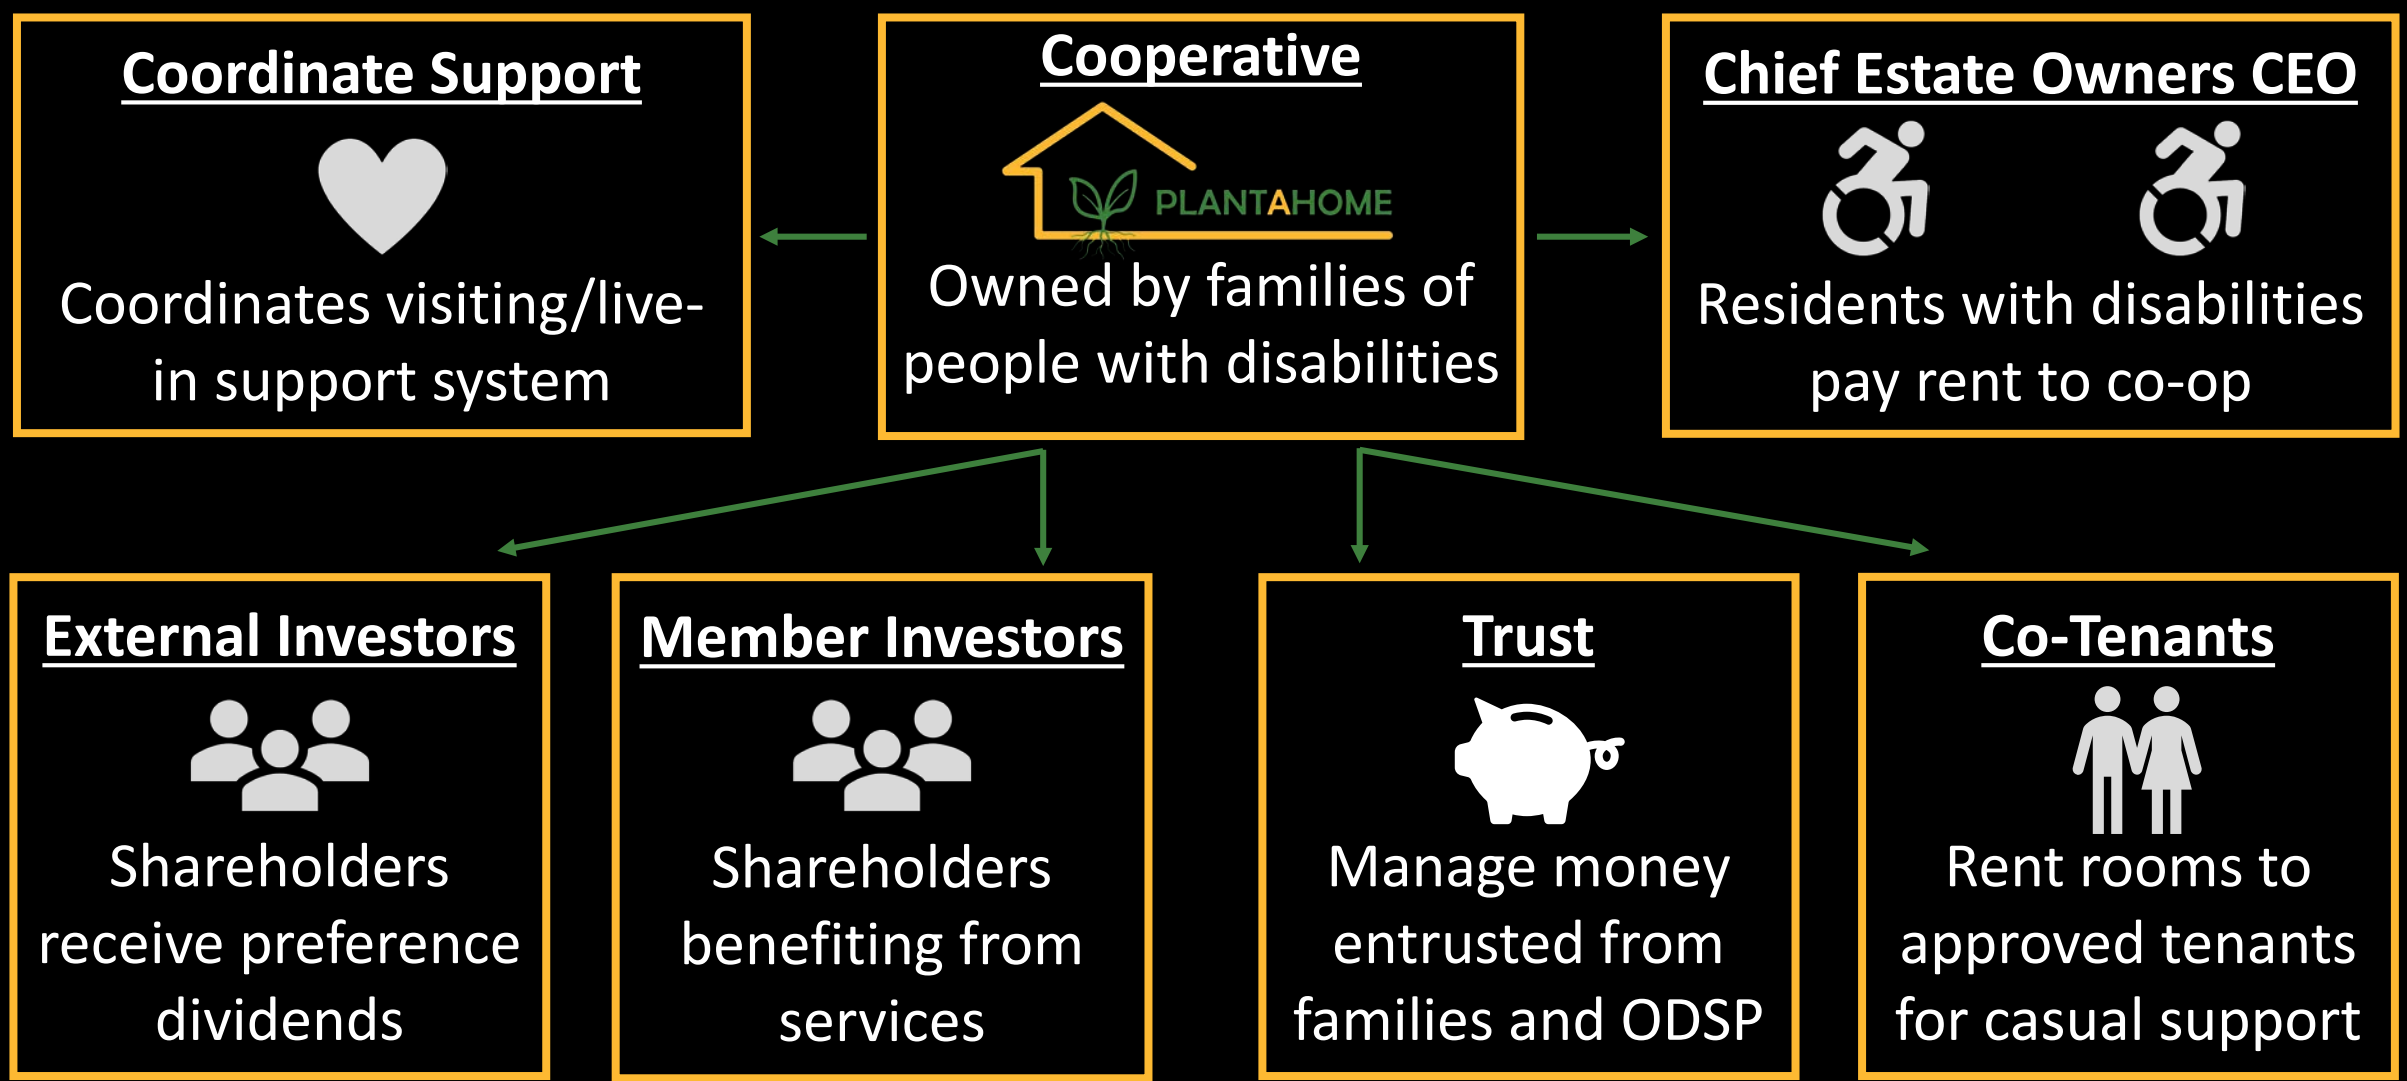

So, what can we do?

Create a **Self-Sustainable** business model for adults with developmental disabilities to **Own** their own homes and live in **Community** with people of all abilities.

# What is our business model?

# How can the Inclusive Design Community Help?

1. Attend co-design sessions
2. Contact with builders
3. Budget building costs

# Discussion

1. What is the best design process to ensure both customization and replication?

# Discussion

## 2. Renovate vs. Rebuild?

# Discussion

3. How can we design for both privacy and community?

# Discussion

4. How can we design for both inclusiveness and cost efficiency?
