

Interfaces for Individuals

Michelle D'Souza
Yura Zenevich
Inclusive Design Research Centre
OCADU

Are you typical?

Make yourself at home...

One Size Fits One

- **User interfaces** that can adapt to the needs, preferences, tastes of learners—feel at home
- **Content that fits**—delivered in a form that learners can understand and use
- **Open Content** enables **adaptability**

fluid*

An open community for designers, users, accessibility folks, and all the other people who don't usually fit into open source.

fluidproject.org

Projects

Tools and advice for creating personalized,
inclusive open educational resources.

floeproject.org

Research and designs enabling learners to
discover, edit, and refine their personal
needs and preferences.

User Interface Options

Problems & Needs

The Internet is **no longer optional**, but many can't use it.

Computers are **everywhere**, but accessibility isn't.

Problems & Needs

Problems & Needs

We are in a new era of **cross platform diversity**.

GPII in a Nutshell

- Discover, edit and refine needs and preferences
- Securely store and share in the cloud
- Automatically personalize desktop, mobile, and web
- Get help when you need it (assistance on demand)
- Reduce the cost and complexity of developing accessible software

GPII

- Windows
- Linux
- Android
- ...

Work in Progress

- UIO mobile
- PMT/PCP
- Simplification
- Self Voicing
