We have more updates for the BEING shop! You can now support Claire's business! Check out her line of hand beaded necklaces and there are some matching earrings too.

From Claire's Online Jewelry Business: Claire loves the concentration needed to make this jewelry. She loves the different colours. Her love of different colours made her branch out into the Gemstone Necklaces. The gems come from all over the world. Making the necklace is like sewing with gems!

Amazing work Claire 🍀

ABOUT THE ARTIST

When I joined the studio I created artwork. This is what I do to express my experience. I like to show my experience. I am inspired by objects in front of you, you cannot imagine. The last important thing to say is why I like to paint. I can show others if I feel upset, happy or worried. I don't need to think too much about stress. I can paint all the feelings out! At the art show exhibitions, I have some art displayed on the wall for many people to go to see. It doesn't matter who we are — disabled people can dream and paint.
